Integrity Roof System®

PERFORMANCE ENGINEERED FOR COMPLETE PROTECTION,
STRONG RESILIENCE AND LASTING BEAUTY

With as much care as you take in selecting the right contractor, choosing the right roof system is equally as important. A CertainTeed Integrity Roof System combines key elements that help ensure you have a well-built roof for long-lasting performance.

1. Waterproofing Underlayment

The first step in your defense against the elements. Self-adhering underlayment is installed at vulnerable areas of your roof to help prevent leaks from wind-driven rain and ice dams.

2. Water-Resistant Underlayment

Provides a protective layer over the roof deck and acts as a secondary barrier against leaks.

3. Shingle Starter

Designed to work in tandem with the roof shingles above for optimal shingle sealing and performance.

4. Shingles

Choose from a variety of Good-Better-Best styles to complement any roof design and fit your budget.

5. Ventilation

A roof that breathes is shown to perform better and last longer. Ridge Vents, in combination with Intake Vents, allow air to flow on the underside of your roof deck, keeping the attic cooler in the summer and drier in the winter.

6. Hip & Ridge

Available in numerous profiles, these accessories are used on the roof's hip and ridge lines for a distinctive finishing touch to your new roof.

4-STAR Protection

You've selected a qualified CertainTeed credentialed contractor and you're choosing the right shingles and roof system. Why not add that extra layer of protection with SureStart™ PLUS?

All CertainTeed shingles carry standard SureStart protection which fully covers your shingles during the early years following installation in the event of a manufacturing defect. Once the SureStart period ends, typically after 10 years, you are covered for shingles only and at a reduced rate as the roof ages.

Your CertainTeed Credentialed Contractor is exclusively authorized to offer you SureStart PLUS 4-STAR protection, which takes CertainTeed's traditional SureStart protection and extends coverage for up to 50 years. That means, in the event of a manufacturing defect, you are fully covered.

Fully transferable for 20 years with 4-STAR Coverage.

*Applies to single-family detached houses. Duration for all other types of structures is limited to 30 years.

Low-Slope Roof Sections: If a project being roofed with CertainTeed shingles has a low-slope section that will be roofed with our Flintlastic® SA modified asphalt self-adhered roof system, or our SMARTCOAT™ liquid-applied roof restoration systems, installed by a CertainTeed Commercial Credentialed contractor, SureStart PLUS extends FULL coverage for the duration of the low-slope warranted period, depending on the level of protection you choose. Residential shingles must be a minimum of one and a half times (1.5X) the amount of flat roof submitted. See Low-Slope Residential Limited Warranty for system requirements and warranty durations.
